

# THE SWEEPING CHOICE

## MEGA SERIES

SWEEPS ANYTHING FROM FINE PARTICLES TO SMALL BOULDERS.

## PRO SERIES

KEEPS ALL WORK SITES CLEAN WITH NO FLYING DEBRIS.

## VALU SERIES

OFFERS LOW COST AND HIGH PERFORMANCE FOR ALL INTERIOR AND EXTERIOR COMMERCIAL SWEEPING.

## HITCHES

## 15 DAY TRIAL

**FORKLIFT:** Easily mounts to standard fork tines. Positive lockdown with forged chains and tensioners.

**SKID-STEER:** Standard quick-tach plate fits most major skid-steer loaders. Desired angle for operation and lock manually selected with single drop pin.

**3-POINT:** Hooks directly to traditional 3-point hitch. Single drop pin secures angle when manually pivoted. (Optional hydraulic angle kit available).

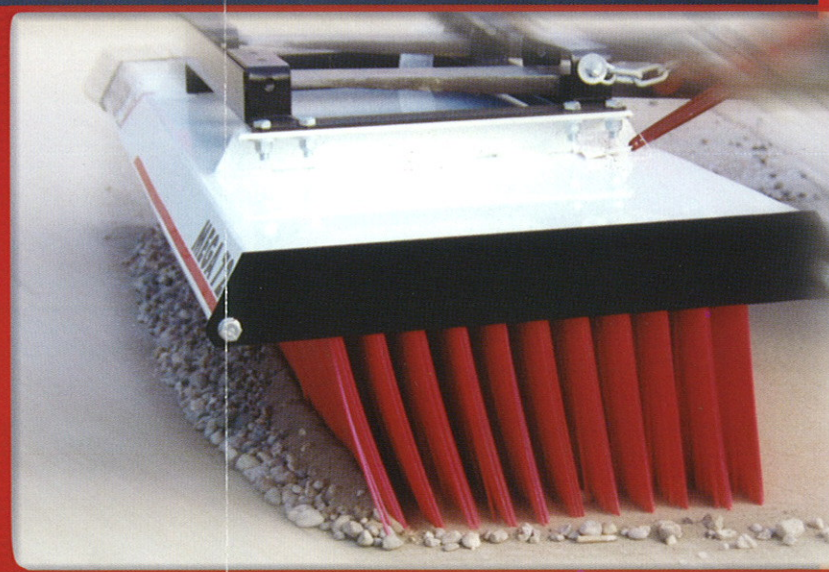

**TRY A SWEEPEX FOR 15 DAYS BEFORE DECIDING IF YOU WANT TO KEEP IT!**

Of course, we offer this guarantee because we're so convinced that once you've tried the SweepEx you'll wonder how you ever got along without it!

If at any time within the 15 days you are not 100% satisfied, simply return the broom for a full refund (less freight charges).

*Merchandise must be returned in "like new" condition before refund is authorized.*

**FIRM, LIMITED MOVEMENT FORCES BRISTLE SNAP-BACK FOR POWERFUL CLEANING ACTION.**

# HOW TO

## SWEEPING WITH A FORK-MOUNTED BROOM

For the best sweeping performance, it is essential to maintain a flat profile of the broom to the surface for all indoor and outdoor applications.

Depending on the size of material being swept, the length of the push can be extended by simply stopping once saturation occurs. Lift the broom, backup just beyond where the debris begins, and drop the broom back on the clean leading edge of the pile and continue sweeping.

All SweepEx brooms, regardless of size and application, work equally well in backward or forward motion.

If only sweeping in one direction, the bristles will eventually knife to a point. Pulling the bristle rows out of the hood and turning them around will offer additional bristle life.

*\*Always refer to operator's manual for full detailed instructions.*

# SPECIFICATIONS

BROOM SPECIFICATIONS	Mega Series	Pro Series	Valu Series
Height	12"	12"	9"
Brush rows	11	8	5
Mainframe	60/72/96"	60/72"	48/60"
